

Biography

Born in 2000 in Ohrid, I completed my secondary education at the Secondary Municipal School "Niko Nestor" in Struga, specializing in Electrical Engineering for Computer Technology and Automation. As a student with consistently excellent performance, I enrolled in undergraduate studies in 2020 at the Faculty of Information and Communication Technologies, University "St. Kliment Ohridski" in Bitola. I successfully completed my undergraduate studies in 2024, graduating with a thesis titled "Modeling e-business processes using the ADONIS software tool." I achieved an average grade of 8.43 and obtained Qualification Level VI-A according to the National Qualifications Framework, with a total of 240 ECTS credits. Upon graduation, I was awarded the professional title of Graduate Engineer in Information Sciences and Communication Engineering. In 2025, I completed a certificate program for pedagogical additional qualification at the Faculty of Education in Bitola. Since January 2025, I have been employed as a teacher of Informatics and Technical Education at the Primary School "St. Kliment Ohridski" in the village of Draslajca, Struga, as well as at the Primary School "Goce Delchev" in the village of Jablanica, Struga. My professional interests include web programming with the application of artificial intelligence, database management, data mining and data analytics, as well as generative artificial intelligence.
