Biography

Born in 2000 in Ohrid, I completed my secondary education at the Secondary Municipal School “Niko Nestor” in Struga, specializing in Electrical Engineering for Computer Technology and Automation. As a student with consistently excellent performance, I enrolled in undergraduate studies in 2020 at the Faculty of Information and Communication Technologies, University “St. Kliment Ohridski” in Bitola.I successfully completed my undergraduate studies in 2024, graduating with a thesis titled “Modeling e-business processes using the ADONIS software tool.” I achieved an average grade of 8.43 and obtained Qualification Level VI-A according to the National Qualifications Framework, with a total of 240 ECTS credits. Upon graduation, I was awarded the professional title of Graduate Engineer in Information Sciences and Communication Engineering.In 2025, I completed a certificate program for pedagogical additional qualification at the Faculty of Education in Bitola.Since January 2025, I have been employed as a teacher of Informatics and Technical Education at the Primary School “St. Kliment Ohridski” in the village of Draslajca, Struga, as well as at the Secundary School “D-r Ibrahim Temo” - Struga. My professional interests include web programming with the application of artificial intelligence, database management, data mining and data analytics, as well as generative artificial intelligence.
